Directors' Review

For the Half Year Ended June 30, 2008

Dear Members,

The Company commemorated its 30th anniversary with record half yearly performance driven by strong demand for our core product - 'Sona' urea. Manufacturing efficiency, judicious management strategies and the resilience of our work force have paid dividends over the years.

Urea Industry recorded a healthy growth of 33% with offtake of 2,693 thousand tonnes as compared to 2,032 thousand tonnes during the corresponding period of last year. The Trading Corporation of Pakistan imported 136 thousand tonnes to bridge the demand and supply gap. Supply comprised of 2,473 thousand tonnes of local urea output and an opening inventory of 159 thousand tonnes. Indigenous urea production recorded a growth of 7% as compared to last year. The Industry carried an inventory of 61 thousand tonnes of urea at close of the period, 89% lower as compared to last year due to improved offtake.

The Industry's manufacturing costs were burdened with an escalation of 5.5% in fuel gas price from January 2008 and a further increase of 31% effective July 1, 2008. The Finance Act 2008 abolished GST on marketing of locally produced and imported fertilizers for the benefit of the farming community. The impacts have been passed on to the consumers.

The year commenced with DAP opening inventory of 276 thousand tonnes. FFBL produced 150 thousand tonnes and 224 thousand tonnes were imported. Industry DAP offtake of 163 thousand tonnes, including 37 thousand tonnes of FFBL's 'Sona' DAP, declined by 65% compared to sales during the corresponding period of last year. The low offtake resulted in a 161% higher DAP inventory of 492 thousand tonnes at the end of the period as compared to last year. DAP demand remained sluggish due to escalation in international price which resulted in an increase of around Rs. 1,800 per bag for FFC DAP locally. Anticipation of enhancement in subsidy to Rs. 1,000 per bag, announced by GOP (modalities not yet communicated), was also a factor.

The Company's urea production remained in excess of designed capacity with aggregate output of 1,184 thousand tonnes, slightly below last year's production due to maintenance turnaround of Plant II, Goth Machhi. The Goth Machhi Complex produced 806 thousand tonnes during the period and the Mirpur Mathelo plant recorded highest ever half yearly production of 378 thousand tonnes.

Company's 'Sona' urea offtake was recorded at 1,192 thousand tonnes, an improvement of 18% over last year's sales, enhancing core product revenue to Rs. 12.55 billion, 30% over the revenue for the corresponding period of last year. The Company marketed 31 thousand tonnes of imported urea while 351 thousand tonnes of 'Sona' urea granular and 8 thousand tonnes of imported urea were marketed on behalf of FFBL. The Company thus captured a market share of 59% during the period under review. FFC DAP sales were recorded at 23 thousand tonnes. Aggregate FFC and 'Sona' DAP sales enabled the Company to capture 37% market participation.

Aggregate sales revenue of Rs. 14.03 billion depicted an increase of 39% over the revenues for last year. Aggregate gross earnings stood at Rs. 6.12 billion, an improvement of 40%, while net after tax earnings surged to Rs. 3.29 billion with a growth of 38% over the net profit for the same period of last year. Earning per share of the Company was recorded at Rs. 6.66 per share as compared to Rs. 4.83 for the same period last year.

The Board has announced second interim dividend of Rs.3.00 per share (30 %), with aggregate dividend of Rs. 6.50 for half year 2008, based on the results indicated in the attached un-audited financial statements of the Company. The Board is also pleased to append the un-audited consolidated financial statements of FFC and its subsidiary FFBL for the period under review.

The global economy is undergoing recession due to the spiraling increase in the price of oil. Pakistan's economy is under tremendous inflationary pressure due to high energy costs and food shortage. However, the long term strategies of the Company provide adequate cover to sustain profitability, with continued support of the Government. All aspects considered, we remain confident regarding the results for the remainder of the year.

On behalf of the Board,

CHAIRMAN Lt Gen Syed Arif Hasan, HI(M), (Retired)

Rawalpindi July 30, 2008 Independent Auditors' Report on Review of condensed Interim Financial Information to the Members of Fauji Fertilizer Company Limited.

Introduction

We have reviewed the accompanying condensed interim balance sheet of Fauji Fertilizer Company Limited ("the Company") as of June 30, 2008 and the related condensed interim profit and loss account, condensed interim cash flow statement and condensed interim statement of changes in equity for the six-months' period then ended (the interim financial information). Management is responsible for the preparation and fair presentation of this interim financial information in accordance with the approved accounting standards as applicable in Pakistan. Our responsibility is to express a conclusion on this interim financial information based on our review. The figures of the condensed interim profit and loss account for the quarters ended June 30, 2008 and 2007 have not been reviewed as we are required to review only the cumulative figures for the half year ended June 30, 2008.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information as at June 30, 2008, is not prepared in all material respects, in accordance with the approved accounting standards as applicable in Pakistan.

Chairman

Chief Executive

- 1. Fauji Fertilizer Company Limited ("the Company") is a public limited company incorporated in Pakistan under the Companies Act, 1913, (now the Companies Ordinance, 1984) and its shares are quoted on the Karachi, Lahore and Islamabad stock exchanges of Pakistan. The registered office of the Company is situated at 93 Harley Street, Rawalpindi, Pakistan. The Company is domiciled in Rawalpindi. The principal activity of the Company is manufacturing, purchasing and marketing of fertilizers and chemicals, including investment in fertilizer, chemical and other manufacturing operations.
- 2. These interim financial statements are unaudited and are being submitted to the shareholders in accordance with the requirements of Section 245 of the Companies Ordinance, 1984. These interim financial statements are presented in condensed form in accordance with the requirements of International Accounting Standard 34: "Interim Financial Reporting". These condensed interim financial statement do not include all of the information required for annual financial statements and therefore should be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2007, whereas comparative profit and loss account, statement of changes in equity and cash flow statement are stated from unaudited condensed interim financial statements for the half year ended June 30, 2007.
- 3. Accounting policies, related judgments, estimates and assumptions adopted for the preparation of these condensed interim financial statements are the same as those applied in preparation of the annual financial statements of the Company for the year ended December 31, 2007 except for the inclusion of following accounting policy:

Investment in Associates

Associates are entities over which the Company has significant influence. Investment in associates are initially recognized at cost. At subsequent reporting dates, the recoverable amounts are estimated to determine the extent of impairment losses, if any, and carrying amounts of investments are adjusted accordingly. Impairment losses are recognized as expense. When impairment losses subsequently reverse, the carrying amounts of the investments are increased to the revised recoverable amounts but limited to the extent of initial cost of investments. A reversal of impairment loss is recognized in the profit and loss account.

Chairman

Chief Executive

- Fauji Fertilizer Company Limited (FFC/ parent company) and its subsidiary, Fauji
 Fertilizer Bin Qasim Limited (FFBL) are incorporated in Pakistan as public limited
 companies and their shares are quoted on the Karachi, Lahore and Islamabad stock
 exchanges of Pakistan. The registered offices of the companies are situated in
 Rawalpindi, Pakistan. The principal activity of FFC and its subsidiary is manufacturing,
 purchasing and marketing of fertilizers and chemicals including investment in chemical
 and other manufacturing operations.
- 2. These condensed interim consolidated financial statements are unaudited and are being submitted to the shareholders in accordance with the requirements of Section 245 of the Companies Ordinance, 1984. These condensed interim consolidated financial statements are presented in condensed form in accordance with the requirements of International Accounting Standard 34: "Interim Financial Reporting". These condensed interim consolidated financial statement do not include all of the information required for annual financial statements and therefore should be read in conjunction with the annual consolidated financial statements of the company for the year ended December 31, 2007, whereas comparative profit and loss account, statement of changes in equity and cash flow statement are stated from unaudited condensed interim consolidated financial statements for the half year ended June 30, 2007.
- 3. The accounting policies related estimates and judgments adopted for preparation of these condensed interim consolidated financial statements are the same as those applied in preparation of annual consolidated financial statements for the year ended December 31, 2007 except for the inclusion of following accounting policy:

Investment in associate

Associates are entities over which the Group has significant influence, but not control. Investment in associate is accounted for using equity method of accounting. Under the equity method, the investment in associate is initially recognized at cost and the carrying amount is increased or decreased to recognize the Group's share of profit or loss of the associate after the date of acquisition. The Group's share of the profit or loss of the associate is recognized in the Group's profit or loss account. The carrying amount of the investment in associate is reduced by the amount of distributions received from the associate. The carrying amount is also adjusted by the amount of changes in the Group's proportionate interest in the associate arising from changes in associate's equity that is recognized directly in equity of the Group.
